I'd Love To Keep Score

GRADES 3-5

Explain

Answer the following in the form of a fraction.

1. If a clock reads 12:15, draw a fraction model to represent the number of minutes needed to read 1:00.

2. If a clock reads 12:30, draw a fraction model to represent the number of minutes needed to read 1:00.

3. If a clock reads 12:40, draw a fraction model to represent the number of minutes needed to read 1:00.

4. If a clock reads 12:45, draw a fraction model to represent the number of minutes needed to read 1:00.

Evaluate

Use greater than, less than, or equal to symbols (> <=) to answer the following.

- 1. Tennis Point 1 _____ Clock 12:15
- 2. Tennis Point 2 _____ Clock 12:30
- 3. Tennis Point 3 _____ Clock 12:45
- 4. Why do you think the third tennis point is said to be 40 instead of 45?

5. Based on this pattern, what do you think is the final point in a tennis set?
